

I request that the FCC not displace K-LOVE with an LPFM broadcaster. I listen to K-LOVE in the Little Rock, AR area on 90.1. K-LOVE provides great encouragement and a positive message to me and my family as well as the members of my community. We listen to K-LOVE daily and would be very disappointed if it were replaced with another station. K-LOVE is the only continuous Christian music station in our area. The other Christian stations devote a large segment of their air time to political updates and talk shows. K-LOVE plays the latest Christian music releases and provides occasional national news updates. K-LOVE is not political or demoniotionally slanted. In this way, K-LOVE provides encouragement to many, many members of our community regardless of their church or political affiliation. K-LOVE is supported with local funds. As long as K-LOVE continues to have such support from the local community, I believe that it should remain on the air in the Little Rock area. Please do not replace K-LOVE with an LPFM braodcaster.
